

## **ABSTRACT**

*Iran is represent state which located in region of Middle East. This state own overseas politics dynamics drawing moment on under leadership of Mahmud Ahmadinejad. Iran represent one of state in region Middle East Owing unique ideology factor and typically. Since Iran revolution 1979 Iran ideology in this time expand and become solidarity of among three instrument, that is nationalism, popular politics and Islamic Syiah.*

*In the end system theology have formed Iran as state which anti West. To fight for its national importance, Iran later then run overseas cooperation with nations positioning x'self as West opposition. One of them is] Russia. In brief range of time in the year 2009-2012 among Iran And Success Russia run bilateral cooperation of at area, politics and economy. In his growth is this relation/link is natural of continuing improvement*

*The growth of economy-politic between Iran And Russia really do not get out of domestic politics factor. This matter represent variable which of vital importance for overseas policy implementation. At modern state of domestic constellation politics able to influence all policy maker to run of decision since later this policy of transformation or justified in domestic context*

*The growth of of economy-politic Iran also that influencer by globalization growth which is complex progressively, making various international issue will be able to simply be influence for overseas policy an state. This matter also act as improvement of Iran And Russia, since some this state second given on to by a issue arm of destroyer and dilemma of applying of norms United Nations. That is the factors will be commented exhaustively of this research.*
